

Churches and Church Activities

ANNOUNCEMENTS

METHODIST CHURCH

TRENT, TEXAS:

We are in the midst of the meeting at Trent, Texas, with Rev. W. B. Reeves. This is his second year here and he is doing a good work. The attendance in the meeting is good but no definite outbursts to date that indicate the type revival that we had hoped to see here at this time. We are yet hopeful that this week may result in the spiritual awakening and the conversion of many souls.

SUNDAY IN HAMLIN

There will be services both morning and evening Sunday in the Hamlin church. Prof. Boswell, Dean of McMurry College, Abilene, will bring the message Sunday evening. He comes as a Christian gentleman to bring a message to the church. There is no collection for the college or anything further than bringing a message and letting our people know that those interested in building Christian character in the lives of the young people attending this institution.

I will be back in the community to take up my pastoral duties early next week. We solicit your prayers for this community, for like all communities these days, a revival is much needed to give strength and courage to meet the problems of this day.

H. A. LONGINO, Pastor.

REV. J. HENRY LITTLETON

IN MEETING AT POTOSI

The pastor of the Baptist Church is in Taylor County, at Potosi, this week in a revival meeting.

His place will be filled Sunday by a visiting minister.

INTERMEDIATE G. A.

The Intermediate G. A. met Monday afternoon at 5:30 in the Baptist Church. After the singing of our G. A. song and a business meeting we had a program on Negro Music from the World Comrade. We then made plans for the G. A. and Y. W. A. house party on Thursday, Friday and Saturday of this week.

The girls are planning on a highly inspirational as well as an entertaining time in Lueders. The program given Monday afternoon will be given again at the house party.

Those who will take part are: Hazel Adkins, Inez Howard, Doris Steed, Clara Louise Shelburne, Avelene Murphree and Estaline Richardson. When the program was finished and all plans completed, we were dismissed with prayer.

—REPORTER.

Mrs. R. B. Morgan and children returned Saturday from Laurel, Miss., where they visited her parents and also Mr. Morgan's parents. Mrs. Morgan's brother, Wilson Padgett, accompanied them to Hamlin for a summer visit.

Clarence Bailey, the old reliable at the Strauss Dry Goods Co., took his vacation in the cool refreshing air of his front porch — a mighty good place too.

SPECIAL SINGERS AT

NAZARENE CHURCH

Male quartet from Bethany-Peniel College, will sing a goodly number of songs for the Nazarene Church of Hamlin, on Sunday night, July 28, at 8:00 P. M.

Rev. Elmer Staley, graduate of Bethany-Peniel College, will preach at the evening service, while the quartet will sing a variety of songs both before and after the evening sermon. If you are a lover of quartet singing which ranks much above the average you should hear these college men sing, and hear young Mr. Staley deliver a good sermon.

The pastor will preach at the morning hour as usual.

Young man if you will attend this morning service, we may be able to help you. Will you come?

Sunday School at 9:45 A. M.

J. H. WHITAKER, Pastor.

BE ONE

DO YOU WANT TO BE ONE IN 50?

We are trying to find 50 persons who will pay for one day of carpenter work on the new Nazarene Church at \$3.00 per day. This will help in two ways. First, it will help us speed our building program. Second it will scatter the employment among more people, as you will be permitted to select your own carpenter.

Anyone who would be glad to help in this way please see the pastor, J. H. Whitaker, and you will be given due credit for your day's donation, and we will appreciate it very deeply as we are having a pull, as any church always does, when on a building program. However, though I am working hard, these are the happiest days I have ever lived, for the simple reason that I feel that we are performing a God given task that will honor Him and advance the Kingdom of Christ in Hamlin.

We again thank every one who has aided us in any way in our undertaking.

J. H. WHITAKER, Pastor.

Eddie Jay came up from Temple last Friday and returned Sunday to be with his wife, who is in the sanitarium for an operation for gall stones. He reported her case was not serious but medical advice was for an operation. She will likely be there two weeks or more after the operation.

The Whitaker family is enjoying the visit of Paul and Bernice Whitaker in their home, for a few days from Bethany, Oklahoma, where they have been in college, and where they are now employed, awaiting the next term to open in September. They will return July 30. Paul will be a senior and Bernice a second semester junior this term, opening September 1st.

Mr. and Mrs. W. E. Perkins of Dallas, have been visiting their mother, Mrs. T. B. Middleton, east of Hamlin.

DENVER MAN

RICHARD J. OSENBAUGH
of Denver

NEW LIONS PRESIDENT

Yesterday the Lions elected their first vice president, Richard J. Osenbaugh of Denver, to the presidency of their Association. Lion "Dick" Osenbaugh, an official of the Denver Sewer Pipe and Clay Company, has been a widely known and respected figure in the Association for many years. Mr. Osenbaugh has been president of the Denver Lions Club, district governor of Colorado Lions Clubs, became a member of the international board of directors in 1930, served two years, and was elevated to the third vice presidency in 1932. He rose successively through the three vice presidencies and was unanimously voted into the highest office of the Association at the Mexico City meeting by the accredited delegates representing 80,000 Lions.

The presiding officer of the convention was Vincent C. Hascall of Omaha, Nebraska, 1934-35 president of the Association. In turning over the gavel to the incoming president Mr. Hascall assured him of his personal support for the year. The association under president Hascall registered a considerable gain in membership, and increased its number of clubs to the total of 2,710. The clubs in the Association during the year registered a total of 20,789 separate activities such as the building of playgrounds, the supplying of typewriters, radios and Braille courses to the blind, the installation of safety devices, and community efforts in many other fields. This is the first time that the gross figures has risen above the 20,000 mark.

Swinging the gavel to announce the adjournment of the last session of the convention on Thursday, the new president praised the previous conduct of the Association, and pledged himself to direct faithfully the affairs of the organization during his term.

ALL TRANSFERS MUST

BE MADE BY AUGUST 1

Any child who is a scholastic and who intends to attend a school that is not his home school must be transferred by August 1, whether his grade is taught or not. If a child is not transferred, then the parent must pay tuition because the district will not be responsible for the tuition and neither will the state. There are no more emergency transfers, hence it is imperative that this be done ON TIME. Please remember that all children must be transferred even though the grade is not taught at home.

E. EARL ISBILL,
Co. Supt. of Schools.

Richard Lehman left bright and early for Ruidoso, up in New Mexico's mountains, to cool off for a few days. No telling what Ted and Richard will get into up there in the snow-topped hills. Richard said he might explore the Grand Canyon too.

BUNDLED SORGHUM

Have a lot of bundled sorghum, fresh, well cured for sale cheap, at our farm just west of Carlton.

S. E. MURFF. (p)

SINGING CONVENTION

This Sunday, the 28th, The Jones County Northside Singing Convention meets at Avoca, beginning promptly at 10:00 o'clock A. M. New books, new songs. Everyone is urged to be present.

MARTIN WESTBROOK, Pres.

HOT GOREE TEAM COMING TO HAMLIN

The Hamlin Ball Club, since being rained out of its game with Munday here last Sunday, has turned its attentions to ways and means of stopping the hard-hitting, fast-fielding GOREE Ball Club. All during the first half of the Wichita Valley League season the Goree Club was a thorn in the side of all the leading clubs, never winning many games, but forcing the leaders to go into extra innings in order to defeat them. Since the second half of the season has started GOREE has lost but ONE game and is just the one game behind Hamlin who at present, is leading the pack.

Last Sunday GOREE BEAT the STAMFORD club by a score of 10 to 2. The Sunday before that it took MUNDAY eleven innings to win over GOREE by a score of 2 to 1, which means that Goree is putting out all they have to win the second half. Goree will come to Hamlin for the first game of the second half, a week from Sunday, which will be August 4th.

CLUB STANDINGS

	P	W	L	Pct.
Hamlin	3	3	0	1.000
Goree	4	3	1	.750
Munday	3	2	1	.500
Haskell	4	1	3	.250
Seymour	4	1	3	.250
Stamford	4	1	3	.250

Hamlin plays Haskell at Haskell next Sunday, July 28th.

HAMLIN'S CHALLENGE TO ALL-STARS

On account of the regular league game between Hamlin and Munday being rained out last Sunday, the Hamlin Ball Club has issued a challenge to the officials who have been conducting the Base Ball Tournament in Hamlin during the earlier part of the week. The Tournament Officials have the privilege of using any player who was a member of the various teams who played in the tournament, and Hamlin will use the players who have been regularly playing on the Hamlin team this season. The probable starting line-ups will be as follows:

TOURNAMENT ALL-STARS:
Doc Hannah, Longworth Club, ss
Elbert King, Tuxedo Club, 3rd b
Jack Mathes, Gen. Crude Club, lf
Runt McCoy, Wise Chapel Club, rf
Creed Portwood, Avoca Club, c
Ralph Riddle, Wise Chapel Club 2b
Bill Stubblefield, Longworth, 1b
Wilbanks, Dowell Club, cf
Hubbard, Neinda Club, p
Bill Hood, Tuxedo Club, p
Other players:
Hughes, Avoca; John Apperson, Tuxedo; Connors, Dowell.

HAMLIN—Wichita Valley League

Bradford, c
J. Hollis, p
Rowland, 1b
Ensley, 2b
Pippin, 3b
Weaver, ss
Jones, lf
C. Miers, rf
Rinker, cf
Anderson, Utility
Ford, Utility
S. Miers, p
Courtney, p

The game will be played in the Hamlin Ball Park next Friday, July 26th, at 3:30 P. M.

Misses Ruby Dean, Lola and Viva Milstead returned last Friday from Las Vegas and Toas, New Mexico, where they had spent six weeks as students of the Texas Tech Botany Botany Field Course. There were 34 persons in the class. They studied in an altitude of from 8,000 to 10,250 feet. They learned a lot about many kinds of plant life.

COACH MORRIS SAYS:

For all boys who expect to play football this next term to meet him at the High School Monday morning, with hoes (the kind you cut weeds with) to be used as "police" instruments on the field of action. This is a good preliminary for a winning team. Conquer the field first, then the opponent. Boys take notice.

Mrs. W. N. Weaver, of Dallas, is a guest of her sister, Mrs. Sam King and family.

DIST. GOVERNOR OF ROTARY HERE

Wednesday, the Hamlin Rotary Club had as their guest, their District Governor, Jim Wilson, Rotarian, of Floydada.

Jim has been in office only less than a month, but he is starting his visits to the 59 or 60 clubs in the district in dead earnest.

While Governor Jim was at the International Convention in Mexico City, someone in the special assembly of District Governors made the remark that a district governor was only a "notch on a stick." From the way Jim is starting off, it would appear that the 41st District was not only the "notch" but a big stick, notches, knots and all in one.

Governor Jim says that its his business to see and know what his clubs are doing, whether or not they are mere luncheon clubs, or trying to carry out the real spirit of Rotary—whether or not they are keeping close to the Rotary Constitution or straying off after strange ideas.

It looks like the 41st District has a real "stick" instead of a mere notch on a stick. He may make a lot of fellows feel that they have never heard what the Rotary Spirit is, much less practice it. From the expressions of the Hamlin Rotarians, they like the way their new governor is starting off. He made a good talk at the regular program hour, and followed it up with a minute inspection of "what is what in the Club," in a round-table talk. Jim Wilson has visited 27 foreign countries since becoming a member of Rotary and if he learned anything during that time, the 41st District will be glad to house-up a lot to their credit.

The Hamlin Club is starting off on the new year, with a new set of officers with Ira Clements as President. From the way Wilson talked to the boys Wednesday, every committee-man will be something different than an honorary pallbearer this year.

PLENTY OF RAIN, BUMPER CROPS

Compare this summer with that of 1934.

Does anybody need to hunt a cooler place in which to spend the summer. All we need to complete the mountain scene is the mountain. If we counted right there have been but about four or five real hot days this year. This year appears more like 1914 than any year since. So far, since the "dust rains" ended, there has been more than enough rain—and still it falls.

Last Sunday, the Hamlin country just barely escaped a bad flood and hail storm. Practically all of Fisher County had big rains and in many localities damaging hail. The McCaulley, Royston and Hitson communities were visited by heavy hail. Farther west the rain was the greatest in many years. Many sections report heavy damage from hail.

The immediate section about Hamlin seems to be progressing nicely. There is to be an abundance of feed stuff. The cotton bids fair to make a big crop, unless something checks it.

Everywhere a blade of grass will grow, there is one growing, and that means stock are in fine condition. The contrast between this year and last is so marked that one can hardly believe this is the same country.

All directions from Hamlin there have been indications of rains every day since last Friday. Hamlin has received more than an inch this week, but there are some nearby communities that have had but little rain.

From indications now, this part of the West will make as good crops as in 1914, except, perhaps the difference in acreage.

BUNDLED CANE

Have lots of bundled cane at my farm 5 miles northeast of Hamlin, for sale at 2c per bundle. Phone us.

J. M. STUBBS.

C. D. Hudson and family, of Abilene, came over for the past weekend to visit with Mr. and Mrs. O. G. Ebert, who had as their guests, Miss Margaret Peel, of Tulsa, and Major Frank Young and family, of Washington, D. C.

DEATH RESULTS FROM AUTO TURN

A terrible tragedy occurred early Thursday night of July 18, only a few hundred yards east of the railroad crossings on the Stamford-Hamlin Highway, when the car in which, a farmer, W. T. Ivy was riding all alone, turned over from some undetermined cause and so fatally injured Mr. Ivy that he never regained consciousness, and died in the early hours of Sunday, July 21.

It was near eight P. M. Thursday when some young men in a car behind Mr. Ivy, saw his car turn over and they rushed to his assistance.

It was found that the man was badly injured and the patient was rushed to the Hamlin Hospital for treatment. Investigations showed that the most serious injury was on the left side of the head, that the skull was fractured and several ribs had been broken and perhaps had penetrated the lung cavity. Doctors from Hamlin, Stamford, Anson and Abilene were called into consultation but there was nothing that could be done. The patient continued labored breathing and in the first hours of Sunday morning, death quietly came.

W. T. Ivy was born in Freestone County, Texas, on August 30, 1881. He was married to Mary Hester Taylor, in Marland, Texas, on November 11, 1900, and to this union there were eight children, who with their mother survive. All of the children were present soon after learning of the accident. The children are Mrs. Bob Winn of Waco; Mrs. Jim Shirley, and Mrs. Herman Zachary, of Abilene. The others are Doyle Ivy, W. T. Jr., Gerald, Mary Frances and Quinton, all of Hamlin. There are three grandchildren.

Besides the immediate family Mr. Ivy had one brother, Ernest Ivy of Houston, and one sister, Mrs. L. H. Linningham, of Jewett, Texas. Also the father of the deceased, Mr. G. W. Ivy, also of Jewett, survives.

Mr. Ivy and family came to Jones County in 1917, settling near Avoca. Later they moved to the Stephens farm near Carlton School, where the family figured prominently in all community affairs. Mr. Ivy had been a member of the local school board for several years.

Mr. Ivy became a Christian and joined the Baptist Church in early boyhood. His membership was in the Avoca church at the time of his death.

Funeral services were conducted Sunday afternoon, in the Hamlin Baptist Church, the pastor, Rev. J. Henry Littleton in charge, assisted by Rev. Gregory, of Roby.

The many expressions of love and sympathy, and the presence of so many neighbors and friends at the funeral testified to the esteem held for the deceased and the sorrowing family.

The Maples Funeral Home had charge of the body and burial was in Hamlin East Cemetery.

Mrs. Claude Davis and little daughter, Mary Ellen, of Abilene, and little Miss Louise Skinner, of Breckenridge, came over Sunday to visit her mother, Mrs. J. C. Bledsoe, who has been suffering from a broken rib in a fall a few days ago.

If Seaman C. D. Anderson of the U. S. S. Monocacy don't quit sending the Herald man so many illustrated magazine sections, the next thing you hear we will be "hitch-hiking" over in China. The papers serve to prove there's plenty to see in the lands beyond the Pacific.

"HAZAROUS AMENDMENT"

Dale Miller in the Texas Weekly, discussed the seven proposed amendments to the Texas Constitution last week, and his conclusions are that perhaps ALL of the amendments to be voted upon on August 24 are "hazardous."

He says:

"Some of the amendments are simply bad in principle; others are more desirable but poorly written and convey dangerous latitudes of power; others are both bad in principle and poorly written."

Dale's reasoning is good and perhaps it would be the best to "swat 'em all." We agree with the Texas Weekly, — "A constitutional amendment that is poorly written should not be adopted—surely one that is "bad" should not.

Miller in his article especially hits that amendment about that one "which would empower the State to furnish free text books to children in private as well as public schools."

It is our judgment that it is a bad amendment. Think of it. Any "crank" could set up a kind of school out of control of the state, yet the state would be compelled to furnish free school books. A thousand things could be said against that.

The old age pension would be good, but it allows ALL persons, regardless of circumstances, over 65 years to draw a pension. Watch out for politics.

SHALL WE DESTROY THE WEALTH?

The recent proposals to create new and more stringent federal taxes, based on the demagogic demand of "share-the-wealth," have met with virtually unanimous denunciation from newspapers, from industrial leaders, and from the best economic commentators.

As many unbiased experts have pointed out, "share-the-wealth" would really "destroy-the-wealth." It is all very well to talk about soaking the rich, and about breaking up accumulated capital, but when you do that you break up industry, you destroy jobs, you artificially dry up the springs of productive enterprise, you stop progress—and in the long run, the person who gets soaked hardest is the man looking for a job.

These new proposals are not primarily destined to raise revenue—drastic and confiscatory as they are, they would produce but a minute fraction of the money that is being spent today for federal activities. The rich are too few and far between, and the great estates would be taxed almost into non-existence are rarer yet. The proposals come under the head of "reform" — and they are put forward at a time when other unprecedented "reforms" are the greatest obstacles in the way of recovery. We need to stimulate capital, not to frighten it; we need to give the investor the confidence that will make him put his money to work, not make him give up in despair because of policies that would destroy the accumulations and labors of generations.

Fair, equitable and reasonable taxation is essential to economic and social stability; inequitable, unfair and confiscatory taxation can create only havoc—at the expense of every worker, every home-owner, every citizen.—INDUSTRIAL NEWS.

INDUSTRIALISTS must come to realize that their products cannot be continually placed before the public unless the consuming public have something to pay with. As a matter of fact those who "have" can not keep getting, at least in the same scale as in days gone by. It is true that when an industry shuts down the main hurt comes to the worker. The industrial captain already has more than enough to live upon and not suffer, but not so the worker. We admit it a poor plan to "soak the rich" to help the poor. The only plan that is worth a whoop, is the one that will enable the bulk of the would-be-laborer have an enterprise of his own. There are not enough jobs to go to all.

WHAT OF IT?

The American farmers are capable of producing far more than can be consumed, especially where so many are working as laborers.

As long as more than fifty per cent of the people are working for the other fifty per cent, conditions are fairly safe. But when 75 per cent or 90 per cent of the people is working for the minor fraction there

is always present a possible serious situation.

There is certainly some relationship of interest between labor and American farm income.

If a way could be found to absorb all the surplus products of the farms and ranches of this country, that WAY would also solve all the labor problems. The greatest absorbing factor is the laborer himself

If it is found there is to be a surplus of wheat and the soy bean is turned to, it will not be long until there is a surplus of soy beans. Beans then become too cheap for production

It is hard to find markets for products without infringing on already established markets.

One of the great troubles with farm life and farm income, is that there has so long been a lack of parity in prices that the farmer had to pay for what he bought compared to what he received when he went to sell—this difference has varied but perhaps it would average about 25 per cent, hence the great buying public represented by farmers meant in the years gone by, about three billion less per year income.

WORK RELIEF HIGHLIGHTS

HAPPENINGS THAT AFFECT THE DINNER PAILS, DIVIDEND CHECKS AND TAX BILLS OF EVERY INDIVIDUAL NATIONAL AND INTERNATIONAL PROBLEMS INSEPARABLE FROM LOCAL WELFARE

On April 8, Congress, at the request of the President, passed a bill appropriating \$4,880,000,000 for work relief.

At that time, Mr. Roosevelt stated that by July 1 all the nation's unemployed who were able to work, would have federal jobs, and would be off the local relief rolls.

July 1 came and passed. More than \$400,000,000 had been approved for 474 projects, yet not a single man had been put to work.

The reason is two-fold: First, and most important, the works program is supposed to employ 3,500,000 men for one year. If that is done, the cost per worker, including materials, must be held down to the very low figure of \$1,143.

Second, there has been constant disagreement between Secretary of the Interior Ickes and Relief Admin-

DEALER ADVERTISEMENT

istrator Hopkins. Mr. Ickes is the head of the Public Works Administration, and Mr. Hopkins guides the Works Progress Administration. The two bureaus inevitably overlap—and both executives claim jurisdiction over the same projects.

Mr. Ickes is of the opinion that relief money should be spent for projects of permanent benefit—grade-crossing elimination, river and harbor developments, road work, etc. Mr. Hopkins, on the other hand, is concerned only with putting men to work, and he knows that the adoption of projects in which material costs are high will defeat that purpose. As a result, he favors projects which require only labor, and demand few or no materials—woodland clearance, malaria control, repairs to public buildings, etc. The two men are so diametrically opposed in their views that it seemed no compromise was possible.

A fortnight ago the President stepped in and provided a partial settlement to the problem. He decided the question of jurisdiction by outlining which projects are to be controlled by Mr. Hopkins, which by Mr. Ickes. Result: All projects involving the expenditure of less than \$25,000 are to be handled by Mr. Hopkins; all those costing more, by Mr. Ickes. For example: If the President approves the building of a canal, Mr. Ickes will handle it—if he says yes to a ditch, it will be done by Mr. Hopkins. Mr. Ickes will build highways, while Mr. Hopkins builds trails. Mr. Ickes will erect public buildings, and Mr. Hopkins will landscape the grounds surrounding them. An so it goes.

The works relief program is at last swinging into actual operation—and the question that remains to be answered is whether or not it can find useful and productive jobs for the 3,500,000 heads of families who are still out of work.

The above is from INDUSTRIAL

WPA (Works Progress Administration) in a nut shell.

NOW THEN: We see that so far not a man or very few have been put to work.

In Texas we see a State Director has been appointed. 20 District Deputies have been appointed and each director in turn appoints assistant directors, engineers, estimators, stenographers, and so on till each state is set up with hundreds of "generals, colonels, majors, captains, lieutenants, sergeants, corporals and all other clerical and examining jobs—to start the hundreds and thousands of jobless men off on some kind of a job.

The whole thing is similar to the "Housing Administration." Not a single director or a sub director can do a darn thing unless some division of the State, County, City or School District is willing to pay a certain amount (which they have not) to meet their part of the job. The WPA men are required to "put all men on the relief rolls to work" but they are helpless if projects are not provided at the "point of contact."

If 300,000 men are at work even by Jan. 1, 1936, we will be surprised. By the time somebody thinks up some foolish job or project and then gets its submitted and all the red tape of engineering detail and approvals are secured and contracts let — by then winter will be on and no one can work. Well, it's not going to work.

Poverty can not long be concealed by expensive clothes.

DULL HEADACHES GONE, SIMPLE REMEDY DOES IT

Headaches caused by constipation are gone after one dose of Ad'erika. This cleans poisons out of BOTH upper and lower bowels. Ends bad sleep, nervousness.

WISE CHAPEL ITEMS

Well, here I come again, after several weeks of absence.

We seem to have plenty of rain for a while. The crops are growing fine.

Joe Webb, of Lamesa, was down on business and visited Mr. and Mrs. Johnnie Agnew over the week-end. Clarence Proffitt returned home Sunday from a week's visit with his brother in Sweetwater.

John Teague and Whitaker Greenway are in Bomarton this week.

BIRTHDAY CELEBRATION

Miss Joyce Agnew celebrated her fourth birthday, July 16.

The following were served punch and cake:

Misses Patsy Fletcher, Glenna Mae and Clyde Dean Whitaker, Adeline Jenkins, Ename Gean Hayes, Gwendolyn Norris, Vivian Rainwater, Keith Neida Jobe, Fay Collins, Virginia Bell, Mae Hamilton, of Abilene, Dorothy, Mildred, Jack Lue, Cadell, and Patsy Isbill, all of Anson.

Billie Ray Hayes, Garylen Fletcher, Bert Rainwater, Miles Lyndon Collins, Robbie and William Whitaker, Wayne and Dan Ray.

We hope Joyce many more happy birthdays to come.

Mr. and Mrs. A. P. Proffitt and daughter spent Sunday with Mr. and Mrs. Sam Proffitt and family of Anson.

son. Mr. and Mrs. Dave Herbst spent Monday night with Mrs. Herbst's parents, Mr. and Mrs. Shield, of Anson.

Mr. and Mrs. Monk and family of Abilene, and Mr. and Mrs. Cliff Proffitt and daughter, of Sweetwater, spent Sunday with Mr. and Mrs. Earl Proffitt and Mrs. Nane Proffitt and sons.

Miss Velere Furtell, of Paducah, is visiting Miss Bernice Bush this week.

—JOYCE.

HIGHWAY PATROL HAS SAFETY TRUCK

"No double parking, please." This in a voice audible for a block, coming apparently from the sky, will mark the double-parking driver to drive on in a hurry.

The driver, if he looks around will see a glistening white truck, with signs on it which resemble an American Legion emblem, but turn out to be the insignia of the state highway patrol.

This truck, designated as a safety educational feature of the patrol, was put in service a month ago, during the meeting of police chiefs and marshals in Austin.

Wick Fowler of Austin, member of the patrol, operates it, and speaks the traffic safety message through

the amplifier device atop the car.

TO VISIT TEXAS CITIES

Fowler, after operating the truck in Austin several day, took it to College Station, at the invitation of College and Bryan officials. During the next month it will be taken to such Texas cities as request it, and it may visit in this section.

The safety truck is being operated experimentally until about August 11, when the new state police law, embodying the patrol and other state agencies will become effective. It likely will be continued in service by that agency, based on reports to Chief L. G. Phares of the highway patrol of its effectiveness.

Mr. Fowler will continue to operate it until that time. Plans for its use will await instructions of the new law organization. Fowler has been recommended as a division official in the department of public education of the new state police administration. If he is appointed to that post, likely someone else will be put in charge of the "safety wagon."

HAS BIG AUDIENCE

Fowler pointed out to city police officials of Austin that effectiveness of the safety truck was in that, when everybody in a block hears the warning against unsafe driving, or a traffic violation, the people will all begin to look around to see who it is being lectured. The sound provides an "audience" at once for the violator, and creates that "guilty

conscience" attitude that causes the driver to move on, or to stop whatever he is doing contrary to the warning.

HAMBURGERS, CANDY and GROCERIES. Also ICE COLD Mellons. LUCKY GIRL PLACE.

Mrs. A. D. Childers, of San Angelo, came Wednesday to look after their residential property here and to visit her daughter, Mrs. E. V. Mitchell.

Mrs. Carl Young and little daughter, Jaunice, are in Mt. Vernon, Texas to visit Mrs. C. E. Gibson, mother of Mrs. Young.

Virgil Daniels, age 14, is back at the Shrine Hospital in Dallas, for further examination and perhaps another operation on his legs.

ICE COLD Mellons, any hour.—LUCKY GIRL PLACE.

Mr. and Mrs. E. V. Mitchell made a business trip to Plainview Wednesday.

Mr. and Mrs. D. Mallonee, of Wichita Falls, are visiting their daughter, Mrs. R. E. McCormick.

You may be cool enough but your motor is hotter than Death Valley!

Protect your motor with Germ Processed Oil!

2 to 4 times greater film strength than plain mineral oil—even at motor heats of 225 to 425 degrees

BREEZES may cool you off as you drive, but your motor runs at terrific heats—from 225° in the crankcase to 425° in the cylinders.

To protect your motor, your oil must have extra film strength and maintain it at these high temperatures. Otherwise, the lubricating film ruptures and the bearings and cylinders suffer damaging wear.

Plain mineral oils have little film strength and oils over-refined by the new cleansing methods have even less. Moreover, these oils rapidly lose film strength as motor heat goes up.

You can protect your motor far better with Conoco Germ Processed Motor Oil, for tests

on the Timken Machine prove that at high motor temperatures it has 2 to 4 times greater film strength than any plain mineral oil!

More proof—supervised road tests were made in identical cars fitted with the new alloy metal bearings used in many 1935 cars. The bearings lubricated with a high-quality plain mineral oil showed 45% more wear than those lubricated with Conoco Germ Processed, the first alloyed oil.

Say "O. K.—Drain"—fill with Germ Processed Oil. Drive far—drive fast—without a worry!

Consider the Husband

For He's a Jolly Good Fellow, and Deserves a Summer Vacation Break—Which Nobody Can Deny

GOING places? Florence, Quebec, Up-in-the-Mountains, Out-on-the-Farm—wherever it may be, give the husband who may have to remain at home on business, every consideration. Give him a can-opener.

Then see that your pantry is stocked for a bachelor's heaven. See that it contains intriguing and easy-to-prepare canned foods which will not only fill his every need, but which will convert your home into a haven for other homeless husbands. Your own summer vacation will be a real holiday because you can rest assured that the husband at home is also happy. He may even stay home long enough to mow the lawn or water your favorite begonia plant.

Made-for-Man Foods

Getting down to brass tacks—for these times when he may want to prepare dinner for himself, when he is tired of restaurants, stock one shelf with such wholesome foods as corned beef, oven-baked beans, whole kernels of corn; delicious soups, such as asparagus, cream of mushroom, chicken with noodles; his favorite fruits—whatever they may be—including, for dessert, canned baked apple and the newly-arrived Brown Betty in cans.

For entertaining—stock a Host Shelf. See that it contains such things as lobster, crab meat, oysters, shrimp and other canned fish; time of cocktail crackers and pretzels; a very large supply of fruit juices such as grapefruit

juice, prune juice and unsweetened pineapple juice. Men like French onion soup, which can now be bought in cans, and also such ready-made entrées as Hungarian goulash, chop suey, and chili con carne. Be sure that you provide canned whole chicken and canned baked ham. And for goodness sake, leave on hand plenty of vacuum-packed coffee—sufficient to last until your return. Then here's to Happy Days!

Suppose You Suggest

If you have qualms about well-balanced meals, vitamins and calories, you might leave a few menus about—but don't be disappointed if they aren't used. You can make use of them yourself when you come home. For men have a habit of wanting what they want. Any way here are two menu suggestions for canned food meals:

Menu No. 1

Chicken and Asparagus Soup
Corned Beef Hash Chili Sauce
Poppy-Seed Rolls
Canned Grapefruit and
Green Pepper Salad
Sliced Potatoes
Coffee

Menu No. 2

Cold Salmon Lemon Veggies
Sweet Potatoes
Lettuce and Tomato Salad
Balls
Baked Apple
Hot or Cold Tea

OK RED TAG NOW CELEBRATING

The Chevrolet Motor Company, which pioneered in the effort to dignify the used car and enable the used car purchaser to buy with confidence, is staging a countrywide celebration, July 20-31, marking the tenth anniversary of the introduction of its now famous "Guaranteed OK Red Tag," which has aided millions in obtaining dependable used transportation.

In every Chevrolet zone city, and at hundreds of dealer establishments in other centers, big "Red Tag" birthday cakes will be displayed and the public will be invited to join in the observance—an arrangement deemed especially fitting, since the public has benefitted from the removal of the element of chance from its used car investments.

All through the 12 days, at all Chevrolet dealers, exceptional used car bargains will be displayed for sale, according to W. E. Holler, vice president and general sales manager of Chevrolet, who arranged the celebration. The even will make it possible to select, at distinct savings, from a wide variety of makes, models, and years, with the dealers' assurance that all items are strictly as represented and sound values at their price.

"Every used car bearing Chevrolet's 'Guaranteed OK Red Tag,' said Mr. Holler, "has been thoroughly reconditioned before it is displayed for sale. Each tag carries a list of the various mechanical units of the car, with a space in which the service manager inserts his checkmark after that unit has been inspected and put in proper shape. The customer can see at a glance just what condition the car is in, and balancing its condition against its price, can determine whether it is the buy for him. The tag is not to be affixed to the car until the latter is reconditioned and fit to give the purchaser dependable service, so its presence constitutes a guarantee of owner satisfaction."

Mr. Holler pointed to the great improvement which the last few

years made in the used car as a commodity, as proof of the efficacy of such efforts as the Chevrolet "Red OK Tag." Not so many years ago, he recalled, the cautious buyer was justified in viewing usedcars askance because their purchase, as frequently as not, failed to meet his requirements, and caused him considerable repair expense. It was recognition of the absolute necessity of correcting this situation that led Chevrolet to the revolutionary step which is now celebrates.

"Used cars are far greater values today than they were 10 years ago," said Mr. Holler. "Obviously, the most recent of them are only a few months behind the current new car models in point of the features they embody—their power, speed, safety, economy, comfort, and appearance. Yet they represent substantial savings, as compared with the new car costs and when bought from a reputable dealer their purchase involves no risk."

"Even at the sacrifice of a few dollars' difference on two identical models, it is wiser to buy from the established merchant whose future depends on customer satisfaction, and who, as a substantial member of the community, will stand back of what he sells."

**BIT'S
O'PHILOSOPHY**
by
DEAN E. V. WHITE
TEXAS STATE COLLEGE for WOMEN (C)

The pleasure of prosperity is usually followed by the pain of adversity.

An advantage in having many kin is that some of them may not be as worthless as others.

Sitting and wishing is a poor way to get what you want.

The more you listen, the larger becomes the number of your friends.

An old fool makes himself older by trying to act a young fool.

Some people judge your religion by your politics.

A wise man profits by his losses.

Let thoughts—not notions—occupy your mind.

Remember it is easier to ask questions than to answer them.

COOLED WITH
WASHED AIR

Mrs. Nolan Tabb has been spending much of her time with her sister, Mrs. Ben Crain at Abilene, after treatment in the hospital.

Mrs. Frank Williams spent last week in Cross Plains with her mother, Mrs. W. C. Adams, who was ill from an injury to her head.

Mrs. Mat Meador, of Alpine, is spending a number of days here with her mother, Mrs. C. S. Low, who has been very sick.

After trying the city of Olney for eight weeks Clinton Bristow is again back in Hamlin at the R. C. Poore Barber Shop.

MyFavoriteRecipes

Frances Lee Barton says:

CHILDREN'S parties often present something of a problem. You can't just turn them loose!

A few weeks ago Billy turned ten years old—with much fanfare from the neighborhood, so his father and I organized a berry picking party. Aside from a few scratched shins and a mild case of poison ivy, it was a huge success. When the adventurers returned home they were quite willing to sit down to quiet games while I made a Blackberry Roly-poly from their pickings.

Blackberry Roly-poly
2 cups sifted flour; 2 teaspoons double-acting baking powder; 1/2 teaspoon salt; 4 tablespoons butter or other shortening; 3/4 cup milk (about); melted butter; 1 1/2 cups fresh blackberries; 6 tablespoons sugar.

Sift flour once, measure, add baking powder and salt, and sift again. Cut in shortening. Add milk gradually until soft dough is formed. Turn out immediately on slightly floured board and roll 1/4 inch thick. Brush with melted butter, cover with blackberries, and sprinkle with sugar. Roll as for jelly roll. Moisten edge and press against roll. Place in greased loaf pan with edge of roll on under side, brush with melted butter, and bake in hot oven (400° F) 20 to 25 minutes. Serve with cream. Serves 8.

will you serve on a jury WITH THIS LADY?

Put Gulf "on trial"

Tried Gulf gas lately? If not, you've a big surprise coming.

Put it "on trial" in your car for the next 3 weeks. Then see if you don't agree with this fair member of the Gulf "jury."

750 "Jurors"

750 car owners recently served as jurors in a "trial" of That Good Gulf Gasoline.

They drove it for 3 weeks—compared it with their regular brands on (1) mileage (2) starting (3) pick-up (4) power (5) all-around performance.

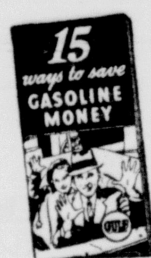

Verdict—Gulf!

At the end of the trial, 7 out of 10 voted for Gulf on one or more of the five counts—many on all five.

Why? Because Gulf is 5 good gasolines in one. Controlled refining gives it not merely 2 or 3 ideal gas qualities—but all five.

Try Gulf 3 weeks. We'll bet it's your regular gas from then on!

GULF REFINING COMPANY

Q. What hint on how to start can cut your gas bills? You'll find the answer in this Gulf Booklet, plus 14 other valuable economy hints. Free—at the Sign of the Orange Disc.

MyFavoriteRecipes

Frances Lee Barton says:

A FEW summers ago I discovered that our family was consuming entirely too many iced drinks for its own good, so I worked out this really delicious chocolate syrup that can be added to milk. (Or poured over ice cream.) I usually make two or three batches a week and keep it covered in the refrigerator ready for use. Of course, the boys love it (I discovered where whole plums of it disappeared after a few scout rallies at our house).

Chocolate Syrup
4 or 5 squares unsweetened chocolate; 1 cup sugar; 2/3 cup hot water; 2 egg yolks, slightly beaten. Melt chocolate over hot water; cool to lukewarm. Add sugar to water, stirring until sugar is dissolved; cool to lukewarm. Add syrup to egg yolks, about one-fourth at a time, beating well after each addition; add chocolate in the same way. Then continue beating mixture 1 minute, or until slightly thickened. Turn into jar, cover. Syrup can be kept for several days. Use 2 tablespoons chocolate syrup for 1 cup milk. Makes 2 cups syrup.
This syrup can be made with scalded milk rather than hot water, if a richer syrup is desired.

The social security bill about which Mr. Roosevelt has done much talking, because it is distinctly a reform measure, has finally been redrafted in the house while senate leadership is unable to get together on any policy respecting it. Some senators want to split up this bill and pass the section providing for old age pensions, allowing the other parts of the bill to die a slow death.

The legislation to increase by \$1,750,000,000 the loaning power of the Home Owners Loan corporation probably will get through the senate without much more ado. The house passed the bill because it could not do otherwise with individual members realizing that there was a chance that some of this money would go into their particular districts. Included in this bill is a line that promises a good many hundred jobs for politicians and it is natural that the party in power is not going to overlook this point.

—It Pays to Look Over the Ads.

Technicolor Comes To Hollywood

What is destined to be the most significant film of the year is the first full-length, color-talkie, "Becky Sharp," in Technicolor's perfected three-color process, reports *The Literary Digest*.

The work largely of Drs. Herbert Thomas Kalmus and Daniel Frost Comstock, graduates of Massachusetts Institute of Technology, Technicolor was first used in 1914.

In 1932 Dr. Kalmus—the firm was incorporated in 1915—found a prospect in Walt Disney who made a Silly Symphony, "Flowers and Trees" in color, and "The Three Little Pigs" convinced producers of the arrival of color in the cartoon field, at least. But it was Pioneer Pictures, owned by John Hay ("Jock") Whitney, head of a \$100,000,000 fortune, and Merian Cooper, former production head of RKO and now guiding hand in Whitney's company, which gave Technicolor's improved three-color process its opportunity in feature films.

The Theory
In Technicolor, white light, or sunlight which is a combination of all colors, is broken up into the three component colors, red, green, and blue. As the light rays enter the camera, they strike a gold flecked mirror which diverts the red and blue rays at right angles through a magenta (red) filter to twin negatives and permits the green rays, without diverting, to pass on through to the third negative.

The magenta filter permits only the diverted red and blue rays to pass through to the twin negatives; the first negative being sensitive only to blue, and the back to red; but three negatives instead of one as in a black and white film must be made. Only the intensity of colors, however, in degrees of black and white, appear on the negatives, not the colors.

It is the development of the single, color positive film that Technicolor, Inc., is secure; for the company controls the developing process. First, the three negatives are covered with a gelatin emulsion; next, a wash removes the soft emulsion; thirdly, the three matrices, forming reliefs of the original colors, are dyed their complementary colors; finally the matrices are printed on one positive film.

Producer's Problem
Much like the advent of the Talkies, says *The Literary Digest*, should Technicolor win popular favor, producers would have to throw out thousands of dollars worth of valuable equipment and change methods in make-up, lighting (more intense light is required), and sets. The color camera, built and leased by Technicolor, Inc., costs \$15,000 and takes about five months to build.

In preparation of a color picture the color designer in "Becky Sharp"—Robert Edmond Jones—first sketched each set, each scene. Harmony between each bit of color in the scene to be shot, costume, furniture or drapes, is essential; for aside from the colors in set and costume the director, as is done on the stage, can flood the scene with any colored "spot" to create whatever mood is desired. But "Becky Sharp" is not too pleasant an introduction to the color field to producers for its cost was about \$1,000,000.

Guard against winter colds with circulated heat

Doctors tell us that a constant, uniform temperature between 65 and 72 degrees is helpful in preventing winter colds. Gas floor furnaces and circulating heaters provide exactly this kind of heat. They CIRCULATE warmed air to every part of the room, knocking cold spots and chilly drafts. With the floor furnace no oxygen is taken from the air you breathe. Both prevent wall sweating. Investigate the advantages of this healthful gas heat while special July prices and terms are effective. Pay only small amount down and equipment will be installed at your convenience.

MRS. FRANK TAYLOR

HONORED

Mrs. J. F. Taylor was joined by Mrs. Fred B. Moore, Mrs. H. O. Casale, Mrs. J. E. Moody and Mrs. C. G. Green when she entertained in her home on Central Avenue, Wednesday and Thursday afternoons, complimenting her daughter-in-law, Mrs. Frank Taylor, a recent bride, of Ft. Worth.

Basquets of roses and zinnias decorated the entertaining rooms and emphasized the pretty color scheme of pink and green which was chosen for appointments and repeated in the attractive refreshment plate.

Guests were welcomed by Mrs. Moore, who presented them to Mrs. Taylor who in turn presented the honoree, Mrs. Frank Taylor. Others in the receiving line were Mrs. Mike Moore, of Stamford, Mrs. Cassie, Mrs. Harry Pitzer, of McAllister, Okla., Mrs. Moody and Mrs. Green. Dainty score cards were offered by Miss Nadine Morgan and Mrs. Frank Waggoner directed to the bridge tables.

Following the games an ice course was served. Favors were tiny nose-gays of orange blossoms.

Wednesday's guest list included Mmes. Billie Bryant, E. P. Bunkley, F. E. Hudson, L. M. Hardy, J. C. Randel, Hugh Astin, Clay Randel and Martin McCain, of Stamford, Mmes. P. A. Fowler, R. H. McCurdy, J. T. Bynum, W. R. Calhoun, Nolan Haines, Curtis Martin, J. Frank Johnson, Mac Brundage, G. T. Haliday, John T. Day, John Ed Day, D. O. Sauls, Florence Morgan, Q. Martin, W. M. Braymer, Elmer Feagan, Bowen Pope, Tom Williams, John Green, Otis Hopper, John Vaughan, Calvin Smith, Arche Pardue, M. L. Kerlin, Lowell Ballew, Frank Williams, F. D. Wells, L. H. McBride, J. B. Eakin, Ray Willingham, W. S. Pike and Mrs. O. H. Berry, of Sweetwater; Misses Edwina Gilbert, Meddie Mae Bynum, Marie Pope, Eleanor Temple and Lulan Vaughan.

Those invited for Thursday afternoon were Mmes. Turner Bynum, J. P. Morgan, W. T. Cherry, Maurice Smith, W. F. Johnson, Clyde Wilson, Joe Culbertson, R. B. Wiard, D. D. Harden, D. J. Payne, B. L. MR. AND MRS. BOYD

ENTERTAINED

Mr. and Mrs. W. L. Boyd entertained members of the Adult B. T. S. and a number of friends at their home on Jackson Avenue, Thursday evening of the past week, with a garden party.

Guests assembled on the inviting lawn which gave the proper atmosphere for the various games suggestive of garden life in some phase. Concluding this delightful social hour cake and ice cream were served to thirty-five guests.

MRS. WELLS HOSTESS

TO CLUB

Mrs. F. D. Wells was hostess to the Trece Senores Club and other guests in her home on Jackson Avenue, Tuesday afternoon.

Roses decorated rooms where the tables of contract were in play. Mrs. Paul Cain won high score for the club and Mrs. J. W. Ezell scored high for guests.

A plate of salads, cake and punch was passed to Mmes. B. W. Nobles, Bill Rountree, Clinton Barrow, L. H. McBride, Paul Cain, J. E. Bury, J. W. Ezell, Frank Williams, F. B. Moore, Lowell Ballew, Walter Cluny, and Joe Culbertson.

CELEBRATES NINTH

BIRTHDAY

Mrs. F. D. Wells entertained Monday afternoon in her home on Jackson Avenue, honoring her daughter, Phyllis, on her ninth birthday.

Various games were played under the direction of Miss Virginia Wells, assisted by Misses Phyllis Gay Mil-sap and Eva Louise Fowler.

Following the play hour, refreshments were served to Misses Wanda Curdy, Bob Low, J. C. Culbertson, Knight, Joan Culbertson, Dora Joyce Clinton Barrow, J. D. Greenway, Henry Albritton, Gene Robinson, M. T. Woodward, Paul Cain, Grogan

Patsy Ruth Wells, and Messrs. Jack Harden, Paul Fowler, Frank Joiner, Billy Joe Hudson, Wilburn Hudson and Jack Townley.

Robert Fowler and Ted Longino both good Boy Scouts, are at Camp Tonkawa for the last half of the annual camp.

The Cream Of Ice-Creams

WHEN the French want to express the fact that something is particularly fine they speak of it as "the cream of the cream". That's a vivid expression, but not too vivid to express the satisfaction to be found in really fine ice-creams.

Your summer fetes will be more festive if you learn the ways of modern mousses and parfaits and other frozen creams, and also the new ways of serving them. Introduce them at your porch parties in pretty frilled paper cups, or piled high in colorful parfait glasses. Here are two that will make the dessert social register:

They're Cooling Too

Mocha Mousse: Add one-fourth cup of strong coffee to the contents of one 5½-ounce can of chocolate syrup. Beat two cups of cream so that it does not become too stiff, add two tablespoons confectioners sugar and then mix with the chocolate. Freeze in refrigerator trays or in an ice and salt mixture. Or the mousse may be poured into individual paper cases, then placed in the freezing trays or in a container of ice and salt. This serves eight persons.

Pear and Strawberry Parfait: Add sufficient water to the syrup from one cup of canned pears to make two cups of liquid. Bring to boiling, pour over one package of lime gelatin and stir until dissolved. Cool. Add the pears, diced, and pour into eight tall glasses. Set in the refrigerator to harden. When ready to serve, beat one cup of cream, add three tablespoons confectioners sugar, one-fourth cup of crumbled macaroons and one-fourth cup of sliced fresh strawberries. Pile on top of the gelatin. Do not beat the cream too stiff. This serves eight persons.

MUSICAL PROGRAM

The Swedonia H. D. Club gave their musical program at Mrs. Kemp's in McCauley, July 15th.

Miss Jennings and Miss Mattie Schick were giving a mattress demonstration at Mrs. Kemp's in an all-day meeting. And Miss Jennings ask us to come there for our own meeting as we were to go to Roby to meet with Miss Lida on July 16—our regular meeting day.

We gave the following program:
Song, "Old Rugged Cross" by all present.

"What Is Music" by Mrs. E. R. Rector.

Song, "In the Garden," by all.
"Sacred Hymn Composers," by Mrs. B. C. Carricker.

"Our Favorite Hymns" by everyone.

"Famous Composers" by Mrs. Jerry Crowley.

"Jazz"—A Round Table Discussion.

Our club will meet with Mrs. B. C. Carricker, Aug. 6th.

Members and visitors present 14.
—REPORTER.

Mr. and Mrs. Hugh Farrow and children returned to their home in Wichita, Kansas, last Saturday after visiting here for a week. Hugh is a son of J. D. Farrow.

ROUND TOP H. D. CLUB

Mrs. B. C. Tatum was hostess to the Round Top Home Demonstration Club, Friday, July 19. Each present answered roll call with an outstanding American statesman. The lesson for this time was, "America Must Choose."

Mrs. Tatum served delicious cake and iced tea to the following ladies: Mmes. Boodle, Allen, Eaton, Lofland and Foreman.

We were glad to accept Mrs. Lofland as a new member.

Since August is vacation month we will not have but one meeting and that will be Aug. 16, with Mrs. Boodle as our hostess.

Mr. and Mrs. Curtis Martin and daughter, Marian, spent most of last week on a trip to South Texas, visiting relatives in San Antonio and Corpus Christi.

Mrs. Bert Brydson and daughter, Miss Marjorie Mae of Austin, are guests of her daughter, Mrs. Arche Pardue.

Mrs. Lela Pyeatt left last week for her home in Dallas, after a two months stay with her sister, Mrs. Sam King.

Lady Took Cardui When Weak, Nervous

"I can't say enough for Cardui if I talked all day," enthusiastically writes Mrs. L. H. Caldwell, of Statesville, N. C. "I have used Cardui at intervals for twenty-five years," she adds. "My trouble in the beginning was weakness and nervousness. I read of Cardui in a newspaper and decided right then to try it. It seemed before I had taken half a bottle of Cardui I was stronger and was soon up and around."

Thousands of women testify Cardui benefited them. If it does not benefit YOU, consult a physician.

FOR SALE

Old College Campus 24 acres, 4 room house with extra lot will make ideal little farm for cows and chickens. Adjoining City limits of Hamlin, accessible to city water, gas, and electric lights. This should be attractive to some old couple for a convenient and comfortable home. Owners desire to sell quick for cash to finish building new church in Hamlin. Will sell with or without the 4 room house. Price is cheap. See me at once because quick sale is what we are after.
